Child Safe Risk Management Policy

PURPOSE

The Child Safe Standards (the Standards) are compulsory minimum standards for all organisations that provide services to children including Victorian schools. The aim of the Standards is to ensure organisations are well prepared to protect children from abuse and neglect. Child Safe Standard 6 requires schools to implement strategies to identify and reduce or remove risks of child abuse.

POLICY STATEMENT

At Moonee Ponds West Primary School our child safety risk management strategy is a formal and structured approach to managing risks associated with child safety. Our process includes risk assessment, implementation of controls and a monitoring and review process to ensure the currency of the risk management approach.

IMPLEMENTATION

The list below comprises an inventory of potential child safety risk and risk management strategies.

Child Safety Risks:

- Lack of an organisational culture of child safety
- Familiarity breeding a culture of not reporting issues
- Natural trust of long term employees
- Children alone with one other person unsupervised
- Recruitment of an inappropriate person
- Inappropriate behaviour not reported
- Unsupervised recreational or other activities
- Ad-hoc contractors on the premises (e.g. maintenance)
- Vulnerability of staff and students due to unknown personal issues
- Unknown people and environments at excursions and camps
- False allegations

Risk Management Strategies:

- Implement an effective child safety risk management strategy
- Child safety code of conduct
- Child safety reporting procedures
- Induction for all visitors, staff, volunteers and contractors
- Train students and staff to detect inappropriate behaviour (Mandatory Reporting Module)
- Counselling (Chaplaincy Program) and other resources
- Clear windows to enable visibility of occupants and non-lockable doors in hot spots
- Assessment of new or changed physical environments for child safety risks
- Supervision or monitoring of activities
- Performance management procedures
- Pre-employment reference checks that include checking for child safety
- Criminal history checks and confirming the currency of WWCC and/or VIT registration

Risk Rating Matrix: to be used in conjunction with the Risk Assessment Checklist.
